Help yourself and others. Volunteer for a study on Insulin Resistance, today!

You may qualify for studies that will evaluate how an investigational drug affects sugar metabolism that leads to Type 2 diabetes

Study participants should be:
- Non-smokers, 18 - 65 years old
- Persons with or without diabetes
- If you have diabetes, you may be eligible if taking:
  - metformin
  - glipizide (Glucotrol)
  - glyburide
  - glimepiride (Amaryl)
  - or diet controlled

Study participants will receive:
- Blood work
- A physical exam
- Compensation for time
